Recd. On 6th August 1913.

No. 168.—The Governor General in Council is pleased to sanction the resignation of—

Mr. Joseph Alfred Marshall, Esq., 1st grade,

and

Palaniyandil, Madras, 2nd grade.

in the third class of the Civil Division of the Indian Order of Merit, in recognition of the galaxy which they displayed on the occasion of a riot which took place in the Presidency, Madras, on the 25th November 1912.

Mr. Mitchell, while accompanying the Superintendent of the Jail on his daily rounds, saw a convict, who was working at a machine in the prison room, strike a blow at the Superintendent with an iron rod. Without hesitation he sprang forward and stood with the convict, receiving several wounds in the struggle. A grovel was raised, during the course of which Mr. Mitchell courageously remained at his post in a position of danger, and was the last to leave the room in which the act occurred. His courage was largely instrumental in saving the life of the Superintendent.

Yardie Palmyrindi, who was off duty at the time when the attack on the Superintendent took place, on hearing the alarm sounded, armed himself with a cut-throat and proceeded with the main gate guard to the prison room, where he found a hard to hand conflict in progress between the convicts and the warder. He promptly shot a convict across with a knife and at once, but who was about to attack the Superintendent, as well as a second convict who was attacking two unarmed warders with a knife. A third and last shot was fired by the warder at another convict who was attacking the Superintendent. Yardie Palmyrindi's remarkable coolness and power of independent action were largely instrumental in quelling the riot, and undoubtedly saved more than one jail official from severe injuries and perhaps death.

Pt. 252.—

October 4, July 19, 1913.

Rules for the levy of fees for work done by the Department of Industries.

Subject to the rules hereinafter mentioned the Department of Industries gives general information and advice, assists in the preparation of plans and in the purchase and erection of machinery, and makes the systematic inspection of installations and places at the disposal of the public the following plant:—

- (i) Hand-boring apparatus.
- (ii) Power drills.
- (iii) Portable pumping plant.
- (iv) Blasting apparatus.

2. The services of the department are offered subject to the following general conditions:—

(a) All fees or other charges leviable under the rules governing departmental assistance are strictly payable in advance.

Note.—In cases where the levy of fees is likely to operate as an undue burden on the slender resources of applicants the Director of Industries may at his discretion remit such fees wholly or in part.

(b) All fees and other charges levied under these rules will be credited to Government.

(c) Refunds of fees will not generally be made but in the case of advances any surplus which may remain unexpended after the work is completed will be returned.

(d) Though every effort will be made to meet the reasonable demands of the public as promptly as possible, the department offers no guarantee whatever in respect of time.

I.—Information and advice.

3. General information and advice will be given free of charge so far as the information is available and advice can be given without local inspection.

4. In cases in which information and advice can be given only after local inspection, such inspection can be arranged for on payment of a fee of Rs. 10 for every inspection.

II.—Assistance in the preparation of plans and in the supervision, and erection of machinery.

5. The preparation of detailed plans and estimates for industrial installations of all kinds will be undertaken by the department on payment of a fee of not exceeding £1 per cent. of their estimated cost as the Director of Industries may prescribe. This fee covers only the actual preparation of plans: any inspection that may be necessary will be charged for in accordance with rule 4 *supra* and assistance in erection, etc., will be charged for as per rule 6 *infra*.

6. The supervision of the erection of machinery and the buildings appertaining thereto will be undertaken by the department on payment of a fee of 2½ per cent. on their estimated cost. This fee covers the cost of supervision until the plant is handed over in working order but does not include the cost of labour and materials which must be borne by the applicant.

7. Where second-hand plant is to be installed, the fee to be charged will be determined by the Director of Industries, but in this as in all other cases where the plant has not been purchased on the advice of the department the Director of Industries may decline departmental assistance if he considers the plant unsuitable, badly designed or in any other way open to objection.

III.—Systematic inspection of installations.

8. The department will arrange for the systematic inspection of industrial installations. Inspections will be of two kinds, viz. "routine inspection" made at the convenience of the department and "special inspections" made at the urgent requisition of the applicant.

9. The fee for inspection will be determined on two scales, A and B, according to requirements.

10. Scale A provides for routine inspections. Under this scale an applicant is entitled to a minimum of three inspections annually or such greater number as it may be convenient to arrange. In cases of sudden breakdowns special assistance will also be rendered but scale A is extended to apply only to installations where the necessity for special inspections is not frequent. The Director of Industries may at his discretion cancel any arrangement under scale A at the close of the official year if he considers that requisitions for special assistance have been unnecessarily frequent.

11. Scale B provides for the inspection of installations where the number of requisitions for special assistance is beyond that contemplated in scale A. Under scale B no routine inspections will be made and an application should be made every time an inspection is required.

12. The fee leviable under scale A is Rs. 15 per annum for each installation.

13. Under scale B an initial fee of Rs. 15 will be levied which will cover the cost of inspection to the extent of its value, but no refunds will be made if the value of the fee is not

completely utilized. Inspections in excess of those covered by the initial fee will be charged for at the rate of Rs. 2 per visit of a mechanical foreman and Rs. 2-8-0 for a supervisor.

14. No installation will be inspected unless fees under one of the two scales are first paid. In cases of non-payment a notice will be issued by the department. If payment is then refused no subsequent assistance of any kind will be given except by special order of the Director of Industries and then only on payment of such additional fees as he may prescribe.

15. The fees mentioned in rules 12 and 13 above will not cover any actual outlay on any repair work carried out by the department which shall be paid for in addition by the applicant.

16. Systematic inspection of a plant will be undertaken only after it has been examined and found to be in good condition. If it is not in good condition the applicant will be informed what repairs are required and systematic inspection will be undertaken only on completion of the repairs. If the applicant deems that the repairs should be executed under departmental supervision, a fee of Rs. 10 will be charged for such supervision.

17. The Director of Industries may without assigning any reason refuse to undertake systematic inspection of any plant or installation.

IV.—Hand-boring apparatus.

18. The hand-boring tools with which the department is provided will drill to a depth of 100 to 150 feet in ordinary soils but are unsuitable for boring in rocky tracts. Where deeper borings or borings in rocky tracts are required a power drill—see section V *infra*—should be used.

19. Enquiries concerning borings should be addressed either to the secretary in charge of the local boring party, to the local supervisor of the department or to the Director of Industries, Post Box No. 454, Madras.

20. When a boring party is established in a taluk the fact will be notified in the District Gazette. Applications for borings within the notified areas will be registered on payment of a transport fee of Rs. 2-8-0 and an advance of Rs. 10.

21. Borings outside the notified areas cannot be undertaken except by special arrangement and on special terms to be settled beforehand. Ordinary applications for borings outside the notified areas will be recorded for future reference. They will not be registered and no fees and advances will be accepted therefor.

22. If the limits of the tract where a boring party is established be extended at any subsequent time, the fact will be notified to all persons whose applications for borings in the extended area have already been recorded. If on receipt of the notice the applicants pay a sum of Rs. 17-6-0 as provided in rule 20 above, the applications will be registered. If no payment is made within a reasonable time after the receipt of the notice, the applications will be regarded as cancelled.

23. The order in which the registered applications will be attended to will be decided by the department with reference to the locality where borings have to be made and the applicants will be duly informed when the boring tools can be placed at their disposal. The department will make arrangements to bring the tools to the site of the proposed boring. If the applicants do not accept the tools when offered, the transport fee will be forfeited and the advance returned.

24. The transport fee is intended to cover the cost of the carriage of the tools to the site proposed for boring. No part of it will be returned to the applicant whatever may be the cost of transport in any particular case nor on the other hand will any further charge be made should the cost of transport exceed the sum of Rs. 2-8-0.

25. The fee for the use of the hand boring tools is Rs. 1-8-0 a day. This fee covers the hire of the tools and the wages of the masonry in charge thereof. All other charges connected with the work should be borne by the applicant.

26. The advance of Rs. 10 will cover the boring fee to the extent of its value. When the required advance is exhausted further advances should be paid at once. As borings will on no account be put down on credit, the work will be stopped and the tools removed immediately the advance is exhausted unless further advances are paid.

27. On the completion of the boring, any sum still to the credit of the applicant will be returned.

28. Fees will be charged for the use of the boring tools for every day that they remain at the work-site but as an act of grace the fees may be remitted for the time during which they may be kept idle on account of accident, heavy rain or other causes beyond the control of the applicants. The time during which the tools are kept idle on account of the exhaustion of advance, lack of labour or other avoidable causes will be charged for in full.

29. The results of a boring will be communicated to the applicant who will be advised what steps he should take to utilize the water-supply available.

30. In cases where sub-surface water is met with, arrangements will be made, if the applicant so desires, to put down permanent lining tubes, the cost of which should be borne by him.

31. The Director of Industries may without assigning any reason decline to put down any boring and return to the applicant any sum that may have been paid by him.

F.—Power drills.

32. The power drills with which the department is provided will ordinarily drill to a depth of 500 to 800 feet in any kind of rock.

33. Enquiries concerning power drills should be addressed either to the local Supervisor of the department or to the Director of Industries, Port Box No. 454, Madras.

34. No fee or advance will, in the first instance, be demanded, but a register of applications for the use of power drills will be maintained.

35. The order in which the registered applicants will be attended to will be decided by the department with reference to the locality where borings have to be put down and applicants will be duly informed when a power drill can be placed at their disposal. Immediately on receipt of notice, the applicants should remit a transport fee of Rs. 50 and an advance of Rs. 50. If the amount is not paid within a reasonable time after the receipt of the notice the application will be regarded as cancelled.

36. The department will make arrangements to take the drill to the site of the proposed boring. The transport fee is intended to cover the cost of carriage and, as part of it will be returned whenever may be the cost of transport in any particular case and on the other hand will any further charge be made should the cost of transport exceed the sum of Rs. 50. If the drill is not accepted when offered the transport fee will be forfeited.

37. The fee for the use of a power drill is Rs. 5 a day subject to a minimum of Rs. 25. This fee covers the hire of the drill and the wages of the trained staff (foreman and driver) necessary for its working. All other charges connected with the work should be borne by the applicant.

38. Applicants should supply ready labourers and provide the fuel and oil required for the use of the plant or pay the foreman in advance a sufficient sum for purchase of the necessary stores on their behalf. Receipts will be given for sums so paid.

39. The original advance of Rs. 50 covers the hire of the drill for ten days. When that sum is exhausted further advances must be paid as soon. As boring will go on account be done on credit, the work will be stopped and the drill returned immediately the advance is exhausted unless further advances are duly paid.

40. On the completion of the boring any sum still to the credit of the applicant will be returned subject to the deduction of the maximum fee prescribed in rule 37.

41. Fees will be charged for the use of the drill for every day that it remains at the work-site but as an act of grace fees may be remitted for the time during which the drill is kept idle on account of accident, heavy rain or other causes beyond the control of the applicants. The time during which the drill is kept idle on account of the exhaustion of the advance, lack of labour or other avoidable causes will be charged for in full.

42. The results of a boring will be communicated to the applicant who will be advised what steps he should take to utilize the water supply available.

43. In cases where sub-artesian water is met with, arrangements will be made, if the applicant so desires, to put down permanent lining tubes, the cost of which should be borne by him.

44. The Director of Industries may without assigning any reason decline to put down any boring and return to the applicant any sum that may have been paid by him.

FL.—Test engines.

45. The test engines with which the department is provided are capable of passing from 150 to 325 gallons per minute on a total lift up to 10 ft.

46. Enquiries concerning test engines should be addressed either to the local Supervisor of the department or to the Director of Industries, Port Box No. 454, Madras.

47. No fee or advance will, in the first instance, be demanded, but a register of applications for the use of test engines will be maintained.

48. The order in which the registered applicants will be attended to will be decided by the department with reference to locality and the applicants will be duly informed when a test engine can be placed at their disposal. Immediately on receipt of the notice, the applicants should pay a transport fee of Rs. 25 and an advance of Rs. 25. If the amount is not paid within a reasonable time after receipt of notice the application will be regarded as cancelled.

49. The department will make arrangements to carry the plant to the site. The transport fee is intended to cover the cost of the carriage of the plant. No part of it will be returned to the applicant whenever may be the cost of transport in any particular case; but on the other hand no additional charge will be made should the cost of transport exceed the above fee. The fee will be forfeited if the plant is not accepted when offered.

50. The fee for the use of a test engine is Rs. 2 a day subject to a minimum of Rs. 15. This fee covers the hire of the plant and the wages of the trained driver in charge thereof. All other charges connected with the work should be borne by the applicant.

51. Applicants should supply coaly labourers and provide the fuel and oil required for the plant or pay the driver a sufficient sum for the purchase of the necessary stores on their behalf. Receipts will be given for sums so paid.

52. The advance of Rs. 25 covers the hire of the plant for about eight days. When that sum is exhausted further advances should be paid at once. As pumping will on no account be done on credit, the work will be stopped and the plant removed immediately the advance is exhausted unless further advances are duly paid.

53. On the completion of the pumping, any sum still to the credit of the applicant will be returned subject to the deduction of the retainer fee provided in rule 50.

54. Fees will be charged for the use of the test engine for every day that it remains at the work-spot but as a matter of price fees may be paid for the time during which it is kept idle on account of accidents, heavy rain or other causes beyond the control of the applicants. The time during which the test engine is kept idle on account of the exhaustion of the advance, lack of labour or other avoidable causes will be charged for as full.

55. Certain special sets of test engines working on liquid fuel are also available for monthly hire on the following terms:—

	Rs.
For one month	50
For three months	150
For six months	300

A transport fee of Rs. 25 will be levied in addition to cover the cost of carriage of the plant. The conditions of monthly hire are otherwise the same as those governing daily hire. No rebate will be made if the plant is not required for the full period for which it is hired but the applicants may extend the period of hire by paying the difference according to the above scale, provided that the hiring is continuous. In the latter case no additional transport fee will be levied.

56. The Director of Industries may, without assigning any reason, decline to lease out the test engines and return to the applicant any sum that may have been paid by him.

VII.—Blasting apparatus.

57. The blasting apparatus with which the department is provided is intended for the explosion of wells or boreholes with a view to increasing the water-supply. Blasting will ordinarily be of use only in hard rocky soils.

58. Enquiries concerning the blasting apparatus should be addressed to the local Superintendant of the department or to the Director of Industries, Post Box No. 454, Madras.

59. Applications for the use of the apparatus will be registered on payment of an advance of Rs. 10. The order in which the registered applications will be attended to will be decided by the department with reference to locality and the applicants will be duly informed when the apparatus can be placed at their disposal. If the blasting apparatus is not accepted when offered, the advance will be forfeited.

60. The advance covers £50 cost of one blast. For each extra blast a fee of Rs. 4 will be charged.

61. The results of the blasting will be communicated to the applicants and they will be informed what further action the results obtained suggest.

62. The Director of Industries may, without assigning any reason, decline to carry out any blasting and return to the applicant any sum that may have been paid by him.

Continued, August 22, 1915.

No. 330.—Whereas the Zamindar of Pudukkottai Taluk in the Tanjore district has applied, under section 32 (a) of the Madras Forest Act V of 1882 for the continued application to his estate of section 32 of the said Act and of the rules framed under that section already published in notification No. 104 of page 105 of Part I of the *Fort St. George Gazette*, dated 4th June 1887, His Excellency the Governor in Council, in the exercise of the powers vested in him under section 32 of the said Act, is hereby pleased to direct the continuance of the application of the provisions of section 32 of the said Act, V of 1882, to the said Pudukkottai Taluk.

No. 331.—Under the powers vested in him by sections 32 and 33 of the Madras Forest Act (V of 1882), His Excellency the Governor in Council is pleased to make the following rules to regulate the management of the forest lands in the Pudukkottai Taluk. These rules are subject to all rights now legally vested in individuals and communities:—

I. Land at the disposal of the Taluk will, for the purposes of these rules be classed as follows:—

(a) Reserved land.

(b) Unreserved land.

II. Reserved land includes all lands notified under the non-following rule III. All other lands at the disposal of the Taluk are "Unreserved lands."

III. Subject to the sanction of the Board of Revenue, the Collector may, by notice in writing to be duly notified in the District Gazette, select any area within the said Taluk and may constitute it "Reserved land." Upon the limits of any such area being notified in the District Gazette, it shall be unlawful for any person to cut, sell, export or remove wood or timber and to collect and remove natural produce within such area unless he is authorized to do so by the Taluk Forest Officer or by some act duly sanctioned by him to grant such permission.

IV. On reserved lands no fresh clearing shall be made for cultivation or for any other purpose unless a permit or lease has first been obtained from the Forest Officer.

V. On all unreserved land in any village, the grazing of cattle, the cutting of grass, the collection of dry wood, bones, leaves of trees and straws that are not reserved and the felling of trees other than those reserved in the list of reserved trees, will be permitted free of charge, provided that the grass, wood, bones and leaves or trees are required by the inhabitants of that or of neighbouring villages for agricultural or domestic purposes. Heads of villages will be held responsible for seeing that the above privileges are not abused, and in the case of dispute the Collector will decide which are neighbouring villages within the meaning of this rule.

VI. The Collector may, by order in writing, to be duly notified in the District Gazette, select any area within the reserved lands and may constitute them land or fields reserved for grazing grounds or any other use to be placed under special protection. Upon the limits of any such area being notified in the District Gazette it shall be unlawful for any person wilfully or negligently to cut fire in

any trees, timber, grass or other forest produce or to handle or to keep having any trees or grass sold or to permit sale or transport within such area, except as such places and subject to such conditions as may be prescribed by the Collector by notification in the District Gazette.

VII. Trees of the following species are reserved from whatever forest, whether open, reserved or unreserved lands, and such trees shall not ordinarily be felled or otherwise destroyed, with except an permit given by the Forest Officer or other authorized officials of the State as such conditions as may be notified from time to time by the Collector in the District Gazette. Subject to the sanction of the Board of Revenue, the Collector, may, by order in writing to be duly notified in the District Gazette, modify or add to the list of reserved trees from time to time as he thinks fit.

VIII. The felling, conversion or removal of trees and timber, the collection or removal of other forest produce and use of the pastures as reserved land, and except as provided for in rule V, on unreserved land also, may be effected in one or more of the following ways but in no other way:-

(a) Directly, that is, by the officers of the State Forest Department having control over the forests or by persons acting under the immediate superintendence, control or orders of such officers.

(b) By persons holding permits duly issued by a Forest Officer or other authorized person. The fees payable for permits under order clause (4) shall not exceed the rates for the three kinds of permits in Government land in the district. These rates will be notified from time to time in the District Gazette.

(c) By any person holding the right under a lease, contract or permit granted by the Forest Officer or by any officer duly authorized by him.

Note.—In this rule, as well as in rule IIF above the term "forest produce" should be construed as not to include minerals (including lime-stone, sandstone, gravel, stone or earth).

[X. The Collector may appoint, by notification in the District Gazette, any person or class of persons by whom or in virtue of an office or lease or contract permit under the foregoing rules and may also prescribe bounds or places to which the timber or other forest produce shall be brought for, examination and where permits shall be obtained or renewed. Permits may be obtained before any felling, conversion, collection or removal is commenced. Permit holders must comply with the regulations of the Forest Department and the conditions entered in the permit.

X. No person shall fell forests, dead wood or any other forest produce in any reserved or unreserved land which may be notified by the Collector except at such places as may be specially set apart for the purpose by the Forest Officer.

Rule.

The Madras District Tramways (1904), Limited, shall send immediate reports to the Commissioner of Police, Madras, of all accidents involving death or grievous harm caused by, or in connection with, tramcars.

Any objection or suggestion which may be made in respect of the above rule by any person interested therein will be considered, if submitted to Government within one month from the date of its first publication in the Fort St. George Gazette.

Notwithstanding, August 25, 1913.

No. 1256.—Under clause (4) of sub-section (1) of section 157 of the Madras District Municipalities Act, 1884, the Government is pleased to issue the following rules for regulating the schemes for the extension of towns and the provision of houses accommodation undertaken by municipal councils:—

Rules.

No scheme for the extension of a town or for the acquisition of land for the provision of house accommodation shall be undertaken by a municipal council unless the scheme selected by it for such extension or acquisition has been previously approved by the District, Medical and Sanitary Officer or the Sanitary Commissioner with special reference to the suitability of the soil for building accommodation, facilities for drainage and water-supply and other matters.

3. The site for an extension should be open to the prevailing winds. It should be elevated above surrounding lands wherever possible and should have a gentle or nearly sub-level slope when such a site is not available as open site possessing a well-defined slope either from one end to the other or from the centre outwards should be selected and the site should not be liable to be flooded. The sub-soil should be of as porous a character as possible, clay being the worst and gravel the best and the sub-soil water level should not rise during the rains to a height less than six feet from the ground level.

4. Streets shall be marked out on the site and shall as far as possible run in straight lines meeting one another at right angles. The main streets exclusive of lateral drains shall be not less than 40' in width and the secondary streets not less than 30'. In the case of long streets, these streets shall be provided at intervals of from 1,000 to 1,200 feet as to secure provision of air and easy work.

5. All streets shall, unless the Government otherwise direct, be metalled throughout their entire width from side to side and not merely the centre of the roadway.

6. Conservancy lanes 10' in width exclusive of lateral drains shall be formed along the backs of houses to enable conservancy carts and carts-goes to move for the purpose of clearing latrines and for the laying of drainage pipes in the event of the town being provided with underground drainage.

7. Streets shall be provided on both sides with open and impervious U-shaped drains without joints be every 40' street width. No such drains shall on any account be rectangular or shall be less than 30" x 3' in main streets, 18" x 18" in secondary streets and 12" x 1' in conservancy lanes, or shall be constructed so close to the outer limits of houses facing the street as to allow water from the rains to fall on to the road surface between the side drains. If the drains are constructed of Calcutta slabs, their joints shall be well caulked; in other cases their sides shall be plastered with smooth sloping to the bottom.

8. The formation of streets and drains must form part of the scheme for laying out the site and should preferably be put in hand simultaneously with the execution of the schemes instead of being deferred to a future date.

9. In all cases where the width of the main streets exceeds 40', municipal councils shall, as far as possible, plant and maintain suitable screen trees on both sides of the street.

10. Suitable places for the construction of public latrines shall be selected and set apart for the purpose.

11. Where there is no pipe water-supply, suitable sites shall be selected for the siting of public wells.

12. The land required for the extension of a town shall be plotted into house-sites, the size of which shall ordinarily be not less than 40' x 60'. Ordinarily also the sites so laid out shall, unless the Government otherwise direct, be sold in public auction subject to such conditions and provisions for future to comply with those as may be varied in the scheme.

13. Every sub-plot in respect of a building-site by a municipal council shall contain a condition which shall, also be embodied in the scheme of sale published by the council regulating the purchase to complete the construction of the house within a period of one year from the date of purchase and providing that, unless the time is extended by the municipal council for good cause shown to the satisfaction of the council, the purchaser's title to the site shall cease and determine and that the site shall re-vest in the municipal council and that the purchaser shall be entitled only to a refund of 50 per cent. of the price originally paid by him to the municipal council.

14. The house plots shall be laid upon plans and until the purchaser submits a plan of the building to the municipal council and furnishes the particulars required by section 160 of the Madras District Municipalities Act, 1884, including—

(a) a statement showing the dimensions of the building and the levels at which it is intended to be by the foundation and lowest floor; and

(b) a statement showing the means of sanitation and drainage and the provision which it is intended to provide.

14. No sub-division or reconstruction of more than one house on each site shall be permitted.

15. Houses shall be constructed with frontage facing the streets and shall have an open space of five feet all round.

16. The construction of houses lying back to back shall be strictly prohibited.

17. No houses or out-houses shall under any circumstances be allowed to be constructed with thatch.

18. The total walls of the house shall not be less than 10' high. The eaves must not be less than 5' above the ground.

19. The provision for ventilation shall comprise suitable windows in the rooms.

20. No house shall be built so as to be less than 5' from the ground and such basement shall be of masonry or some solid-proof material.

21. All backyards of houses shall be provided with a gateway so as to give access to municipal officers for the purpose of inspection and to the private scavenging staff.

22. All backyards of houses shall be provided with a suitable impervious bulking platform for the deposit of the refuse. Each house shall be provided with a latrine to be made in a standard pattern supplied by the municipal office or any other pattern approved by the municipal chairman.

23. All surface water from a house and its backyard shall be drained into the municipal drains in the convenient lane and not into the drain in front of the house which is provided to carry off storm water.

24. All cattle yards shall be flagged and properly drained.

25. All houses shall be enclosed by suitable compound walls or fences of such description as the council may prescribe.

26. Except in so far as may be necessary for the association of frontages or walls or the levelling or sloping of the ground, no purchaser of a house site shall remove earth from the site for building or any other purpose or so as to leave hollows in it.

27. Rules 13 to 26 above should also be embodied as conditions of sale in the notice of sale published by the council and in the sale deed before possession of a site is given. In case of breach of any of these conditions the council shall call upon the owner of the plot to make the necessary alterations or penalties within a period of three months, in default of which the municipal council shall be authorised to make them itself and remove the cost from the owner.

28. No relaxation of rules 13 to 26 shall be permitted without the prior approval of the Sanitary Commissioner which will be given only as special grants.

No. 11485.—In exercise of the powers conferred by clause (a) of sub-section (1) of section 15 of the Commencement Act, 1919, and with the previous sanction of the Governor General in Council, the Queen in Council is pleased to impose the following taxes in the Cantonment of Bellary:—

State, the 26 April 1913.

No. 405.—The following Order of His Majesty in Council giving effect to the accession of the Netherlands on behalf of Surinam to the International Copyright Union published in the *London Gazette* of the 17th June 1913, is republished for general information:—

At the Court at Buckingham Palace, the 13th day of June 1913.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY.

Lord President.	Lord Selkirk.
Lord Chamberlain.	Sir Samuel W. Griffith.
Lord Wemyss.	Mr. J. Harcourt Lewis.
Lord Ashby St. Ledgers.	Mr. Alfred M. Wood, Esq.

Lord Justice Swinfen Eady.

Whereas His Majesty, by virtue of the authority conferred on Him by the Copyright Act, 1911, and having regard to the provisions of the Berlin Copyright Convention, was pleased to make an Order in Council, dated the 26th day of June 1912 (hereinafter called the Principal Order), extending the protection of the said Act to certain classes of works to which protection is guaranteed by the said Convention.

And whereas by Order in Council, dated the 27th day of March 1913, and the 11th day of April 1913, the provisions of the Principal Order were extended, subject to certain modifications, to Denmark, the Netherlands, the Netherlands East Indies, and the Colony of Curaçao.

And whereas the Kingdom of the Netherlands has acceded on behalf of the Colony of Surinam to the said Berlin Copyright Convention, subject to the reservations mentioned in the Schedule to this Order:

Now, therefore, His Majesty, by and with the advice of His Privy Council, and by virtue of the authority conferred upon Him by the Copyright Act, 1911, is pleased to order, and it is hereby ordered, as follows:

The Principal Order shall extend to the Colony of Surinam, as if it were amongst the foreign countries of the Copyright Union therein named, subject to the following modifications:—

- (a) The provisions of Article (2), Provision (iii) (a), and of Article (3), Provision (iii), (c), of the Principal Order shall apply as if the Colony of Surinam were included amongst the foreign countries named in those provisions.
- (b) In the application to works of which the country of origin is the Colony of Surinam of Section 1 (2) (d) and 17 of the Copyright Act, 1911, the date of this Order shall be substituted for the commencement of the Act in Sections 19 (7) and 19 (8) whenever that expression occurs, and the 1st April 1913, for the passing of the Act.
- (c) In the application to such works of the provisions of section 26 of the Copyright Act, 1911, the date of this Order shall be substituted for the commencement of the Act whenever that expression occurs in sub-section (1) (c), and for the 29th July 1912, in sub-section (1) (d).
- (d) In the application to such works of the provisions of Article 5 of the Principal Order the date of this Order shall be substituted for the commencement of the Principal Order.

And the Lords Commissioners of His Majesty's Treasury are to give the necessary orders accordingly.

GENERAL HOSPITAL MADRAS.

TENDERS FOR SUPPLY OF ARTICLES OF DIET AND HOSPITAL SUPPLIES.

Notices is hereby given that sealed tenders to be received up to 11 o'clock (morning) on Wednesday, the 3rd September 1912, by the Senior Medical Officer, General Hospital, for the supply of the following articles:—

Diet, Starch, and Bread, etc., Starch—Consist of articles which must be supplied in bulk within seven days after acceptance of tender. Payment will be made on bills as soon after receipt as possible.

1. The articles required are detailed in the classified schedule appended, and information as to samples, etc., may be had on personal application at the hospital.

2. A separate tender must be sent in for each article.

3. Tenders will be opened by the Senior Medical Officer at the General Hospital at the appointed time in the presence of three witnesses who may choose to attend.

4. Tenders to be superseded in the manner detailed in paragraph 1, and on the covers the words "Tenders for Hospital supplies" written. Each tender must state not only the rates, but the total value of each item of supply entered in a separate column, the items in which must be totalled up showing the aggregate value of each entire tender.

5. Each tender must be accompanied by a deposit (in Government promissory notes or Bank receipts) as counter-security of the amount stated against each article. When several articles are tendered for, one Bank receipt for the total amount of counter-security will be received. In default of such deposit the tender will be rejected, nor will any tender be received after the time fixed for the opening of tenders. No cash will be received. This deposit will be returned to successful tenders immediately and to the others as soon as they have made their supplies.

6. No person making a tender shall be allowed to withdraw his tender for the space of thirty days from the date thereof, and, in the event of his so doing, his deposit shall be forfeited on Government.

7. No advance of cash will be made to the tenders.

8. Bills on presentation will be paid by the Deputy Assistant-Secretary for payment at the Madras Bank after delivery of the articles.

9. The Senior Medical Officer reserves to himself the right to decline or accept the tender for any one or more of the articles tendered for by the successful tenderer without assigning any reason for so doing.

10. The Senior Medical Officer also reserves to himself the right of rejecting tenders without assigning any reason for so doing.

11. Government promissory notes lodged as current money shall not be ordered nor by the Senior Medical Officer, but they remain in the name of the tenderer. Government will appropriate or spend the

5. Tenders to be accepted in the manner specified in paragraph 3, and on the order the words "Tenders for Ayilam supplies" written. Each tender must contain not only the rates, but the total value of each item of supply entered in a separate column, the items in which must be totalled up showing the aggregate value of each entire tender.

6. Each tender must be accompanied by a deposit (in Government promissory notes or Bank receipts) as security of the amount total against each article. When several articles are tendered for, one Bank receipt for the total amount of security-money will be required. In default of such deposit the tender will be rejected, and will not be received after the time fixed for the opening of tenders. No work will be received. This deposit will be retained to successful tenders immediately and to the others as soon as they have made their supplies.

7. No person making a tender shall be allowed to withdraw his tender for the space of thirty days from the date thereof, and, in the event of his so doing, his deposit shall be forfeited to Government.

8. No alterations of such be made to the tenders.

9. Bills on presentation will be passed by the Deputy Commissioner-General for payment at the Madras Bank after delivery of the articles.

10. The Superintendent reserves to himself the right to decline or accept the tender for any one or more of the articles tendered for by the successful tenderer without assigning any reason for so doing.

11. The Superintendent also reserves to himself the right of rejecting tenders without assigning any reason for so doing.

12. Government promissory notes lodged as security-money shall not be returned over to the Superintendent but shall remain in the name of the depositor. Government will appropriate or assign the same as per G.O. No. 2258, dated 1st March 1903, authority to that effect being duly entered in the warrant or other document executed by the depositor.

13. With reference to the stipulations contained in the preceding paragraph No. 12, the tenderer should attach a certificate in his schedule to the following effect:—

"I, the tenderer, agree to have the security-money, if in Government promissory notes or Bank receipts, retained in Government in case of my failure to deliver the contract."

14. No article shall be supplied to the Ayilam, except on authority signed by the Superintendent or by some responsible person authorized by him in writing to do so.

15. Printed forms of tenders can be had on application at the Government Lunatic Asylum, Madras.

16. Samples are not required unless called for. When called for, they must be sent in within two days. If approved and tender accepted, the samples received will be treated as part of the supply. If rejected, the samples will be paid for at the tender rates. Tenderers are distinctly to understand that, if the tender be accepted, the balance of the article or articles required must be in every way equal to the approved sample. The opinion of the Superintendent to be final on this point.

3. The articles required are detailed in the attached schedule annexed, and information as to samples, etc., may be had on personal application to the hospital.

4. A separate tender must be sent in for each article.

5. Tenders will be opened by the Superintendent at the Government Voluntary General Hospital at the appointed time in the presence of three interested who may choose to attend.

6. Tenders will be accompanied in the manner specified in paragraph 1, and in the case of the whole of the articles for hospital supplies. Each tender must contain not only the rates, but the total value of each item of supply entered in a separate column, the items in which must be totalled up, showing the aggregate value of each entire tender.

7. Each tender must be accompanied by a deposit (in Government promissory notes or Bank receipts) an amount of 10 per cent. of the estimated value of the articles. When the articles are tendered, the deposit will be returned to the tenderer. In default of such deposit the tender will be rejected, nor will any tender be accepted after the time fixed for the opening of tenders. As and when it is required, the deposit will be returned to successful tenderers immediately and to the others on or after they have made their supplies.

7. No person making a tender shall be allowed to withdraw his tender for the space of thirty days from the date thereof, and, in the event of his so doing, his deposit shall be forfeited to Government.
8. No advance of cash will be made to the tenderer.
9. Full and punctual payment will be passed by the Accountant-General for payment at the Madras Bank after delivery of the articles.
10. The Superintendent reserves to himself the right to decline or accept the tender for any one or more of the articles tendered for by the successful tenderer without assigning any reason for so doing.
11. The Superintendent also reserves to himself the right of rejecting tenders without assigning any reason for doing so.
12. Government proprietary notes lodged as earnest money shall not be returned over to the Superintendent but shall remain in the name of the Government. Government will appropriate or cancel the notes as per G.O. No. 2155, dated 1st March 1930, authority to that effect having duly entered in the contract or other document executed by the tenderer.
13. With reference to the stipulations contained in the preceding paragraph No. 12, the tenderer should attach a statement to his schedule or schedules to the following effect:—
“I, the undersigned, agree to have the earnest money, if Government proprietary notes or Bank receipts, deposited in Government in case of my failure to subscribe the contract.”
14. No article shall be supplied to the Hospital except on authority signed by the Superintendent or by some responsible person authorized by him in writing to do so.
15. Proper forms of tenders can be had on application at the Government Veterinary General Hospital, Madras.
16. Samples are not required unless called for. When called for, they must be sent in within two days. If approved, and tender accepted, the samples received will be counted as part of the supply. If rejected, the samples will be paid for at the tender rate. Tenderers are desirably to understand that, if the tender be accepted, the balance of the article or articles required must be in every way equal to the approved sample. The opinion of the Superintendent to be final on this point.

The Standard Barometer and Thermometer are read at 5 a.m., 10 a.m., 4 p.m., and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The column of the Barometer is twenty-two feet above the level of the sea, and the records of the Rain Gauge is ten feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 6.24 inches, the average for the same period being 19.70 inches.
